About Emile Euverman

Emile Euverman is an attorney-at-law at AKD. He specialises in all aspects of environmental law and spatial planning, focusing primarily on nature conservation and the environment. He also publishes regularly on these issues.

His clients include (decentralised) government bodies and businesses. They appreciate his specialist knowledge, helpful nature and clear use of language.

Emile studied law and graduated with distinction. The subject of his thesis was the need for (independent) areas of potential within the conservation regime of Natura 2000 sites.
